

2018 Sun Belt Football Media Day

July 23, 2018

Troy Quotes

Head Coach Neal Brown

Opening Statement:

"I believe the Sunbelt is ready to rise above, and prepare to take that next step as the lead great time to be a Troy Trojan, we're 21-5 over the last two years 8 most wins in college history, New Orleans Bowl Champions 2017 our fans support us at an all-time high. Our staff and players are extremely excited about this fall – new year, new challenge."

On the team growing over the offseason:

"You know it's funny, you watch a lot of these media days and we don't ever use the word repeat, I talk about it...new year, new challenge. This is a new football team I think one of the exciting things about being a coach is you never know what adversities you are going to hit, who's going to step up, people always ask me what are you fired up about camp for? I'm fired up to see who's going to make that big jump cause someone's going to make that big jump."

Deontae Crumitie (Sr., OL)

On offseason improvements:

"I feel good I feel like we've gotten a lot stronger as a group everybody has been working hard pushing themselves to the maximum limit."

Hunter Reese (Sr., Bandit)

On big expectations coming off last season:

"Last year obviously we were not expected to do what we did, so the expectation really doesn't change anything for us, just something else that goes in your head and we just put it in the back and we work like we always have like when we were a four-win team, we work the same regardless of our expectations, we don't let the preseason polls dictate how we work, we're always getting after it and doing our best."
